

School PC Support Services

- Has your school successfully applied for new computers from the Government's National Secondary School Computer Fund?
- Do you require advice on managing these new assets or planning their deployment?
- Will your IT team need assistance with the time-consuming and technically demanding task of adding these new PCs to your network while continuing to support your daily operations?

If you answered yes to these questions then GTcentral can help. We are a leading specialist provider of quality ICT Support and Planning services to schools. We are experts in bulk PC and Mac deployments and can specifically provide:

- A pre-installation audit of your school's IT infrastructure to ensure in advance that it will satisfactorily support your new hardware.
- Implementation planning to ensure deployments are performed efficiently without disruption to existing services
- System unpacking and network installation, ensuring all computers are secure and appropriately patched.
- Implementation and support of Microsoft System Center tools including Configuration Manager for managing computer assets and system security.
- IT staff to supplement your existing IT team and support day-to-day operations during the deployment
- Advice on deployment practices and effective use of computers in the classroom.
